## **Service Information**

February 2007

### **Replacement Mk2 Fuel Tank**

The Mk2 Petrol tank has been unavailable for many years and is now causing a problem to Haflinger owners. Haflinger Technik has therefore commissioned a replacement part.

The new tank will act as a replacement for the following parts :

- 700 167 3002 Version with fuel signal (lamp)
- 700 267 3002 Version with fuel guage

Haflinger Technik will use the number 700 267 3002 R for the new version. It has both the fitting for the fuel signal and the fitting for the fuel guage. It may be used to replace either type by blanking off the fitting which is not required (a M12 x 1 plug will be supplied on request to close the fitting for fuel signal)

The existing fuel cap, signal, sender unit, drain plug and feed pipe will all fit the new type tank.

In addition, Haflinger Technik will also offer a fitting kit (part number 800 167 0002) which contains : (all parts also available separately)

- 1 x 700 167 0110 Fuel cap
- 1 x 700 167 3221 Gasket for sender unit
- 5 x 23099 Screw M5 x 12 for sender unit
- 1 x 900 4227 Seal washer for drain plug
- 2 x 900 4241 Seal washer for feed pipe
- 1 x 900 4213 Seal washer for signal
- 1 x 800 167 0001 Plug M12 x 1
