

Haflinger Technik Ltd

Haflinger Project – for sale on behalf of a customer

For sale – unfinished haflinger restoration project.

This is a LWB 1971 Haflinger with steel front and full length hood frame, doors & rear seats.

The vehicle has been partly restored to a very high standard over the past 3 years but now sadly has to be moved on to make way for another project.

The state of play is as follows :

Chassis

The chassis has been completely refurbished, repainted and re assembled with many new parts. The gearbox & diff's were in good order so left alone.

Engine

The engine was in good order and has been cosmetically overhauled / repaired as required.

Platform

The platform has been extensively refurbished by a classic car (rolls royce) bodyshop, and is 90% NEW using replacement KRETZ panels. Most of the work is done but the platform will need some minor fettling and painting.

So – what needs to be done ??

The big jobs which need to be completed are :

- Finish platform and paint
- Repair / Refit wiring loom
- Refit Platform and reconnect linkages & wiring
- Refit fueltank, battery boxes etc
- Manufacture new hood & refurbish doors & seats

This vehicle has had hundreds of hours and thousands of pounds spent on it. Full receipts will be provided but the main new components are :

- 5 x new tyres
- 4 x new rims
- New platform panels
- New stainless exhaust
- New checkstraps
- New fuel tank
- New Rear axle Tubes
- New Shock Absorbers
- New Brake Cylinders & Pipework
- Tinwork, crossmembers & Springs all powder coated
- Countless seals, gaskets etc etc

This vehicle has the potential to be an outstanding Haflinger.

Offers are invited over £5750.00 (NO VAT)

Viewing can be arranged (located in our premises at Lanark, Scotland)
