Haflinger Fuel Pumps

There exists a number of different fuel pumps used on the Haflinger, Puch car, Invacar and Stationary Engine.

To assist with identification of parts we have collated the following information.

In all cases the pump type is marked on the edge of the mounting flange. Please confirm this number when ordering spare parts.

| Make | Model | Screws | Fittings | Diaphragm | Additional Information |
|-------|---------|--------|-----------------|--------------------|-------------------------------|
| Weber | PM20 | 5 | 2 x Push on | 5012083352 (long) | Also has oil seal 5012083291 |
| Weber | PM 24 | 5 | Banjo + Push on | 5012083352 (long) | Also has oil seal 5012083291 |
| Weber | PM 26 | 5 | Banjo + Push on | 5042083352 (short) | Some have oil seal 5012083291 |
| Weber | PM 27 | 5 | 2 x Push on | 5042083352 (short) | |
| Solex | PE14630 | 6 | Banjo + Push on | 7001083232 | Used on early engines only |
| Solex | PE15080 | 6 | 2 x Push on | 5041083452 | Later engines & DHSS |
